Subject: Brokerage Structure – July to Sept 2020
Attachments: Brokerage_Rate_Pref_T_July_to_Sept_2020.pdf; Terms_and_Conditions.pdf

Dear Associate,

Greetings from Canara Robeco !

Hope you and your team is doing good in these tough times.

The first quarter of FY21 challenged everyone in many ways. Lockdowns, muted economic activity slowed growth but RBI and Government have announced various monetary/fiscal/reform measures to boost economic output and try to get India back on track. The efforts taken by regulators and government are slowly making impact as India Inc. is slowly coming back to life. Factories and plants are opening across the country and other services are slowly reopening their businesses, albeit with utmost caution all around. Indian markets are seen to be bouncing off from the lows seen recently. The economy may take some time to normalize and adapt to this new course of life. Valuations still appear very attractive to take exposure to Indian markets, both debt and equities by adding market linked products like Mutual Funds to their portfolios. Investors should not let go of the opportunity to be a part of the India growth story which is expected to be big going ahead.

- Enclosed please find the Brokerage structure for the Quarter July to September 2020 and Terms and Conditions.
- B30 rates are rolled out on monthly basis.

We look forward to your continued support in FY2020-21 and assuring you of our best services at all times.

Please contact your Relationship Manager for any queries or clarification or email to <service@canararobeco.com>

Thanks & regards,
TEAM - Distributor Services
